
THE MOB GROUP

Building, Powering & Supporting Northern Australia

CAPABILITY STATEMENT

- ELECTRICAL
- BUILDING
- WASTE MANAGEMENT

INDIGENOUS OWNED | NORTHERN AUSTRALIA | SUPPLY NATION REGISTERED

ABOUT US

Northern Australia is a truly unique location, home to over 100 nationalities and their rich cultures. This melting pot of diversity shapes our thoughts, lifestyles, and identities.

As the gateway to Asia and the Tropical North, Northern Australia is a land of endless possibilities. It is also home to Aboriginal people, the oldest known culture in the world.

The Mob Group is a proudly Northern Australian family-owned business delivering integrated construction, electrical, maintenance and project services across the Northern Territory, North Queensland and remote Australia.

Through our specialist businesses—The Electrical Mob, The Building Mob and The Bin Mob—we provide clients with a single point of contact for complete project delivery, reducing contractor interfaces and improving project outcomes.

Our team combines decades of experience across construction, insurance rectification, modular infrastructure, remote community projects, electrical services and disaster recovery works.

From major infrastructure and workforce accommodation projects to emergency response and community maintenance programs, we deliver practical solutions in some of Australia's most challenging environments.

COMPANY SNAPSHOT

- Indigenous-Owned
- Northern Territory & Queensland
- Electrical Services
- Building & Maintenance
- Skip Bin Solutions
- Remote Community Projects

OUR BUSINESSES

Delivering Electrical Infrastructure, Communications & Remote Services Across Northern Australia

THE ELECTRICAL MOB

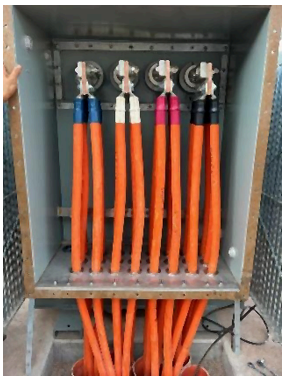
Delivering specialist electrical, communications, refrigeration and infrastructure services across commercial, industrial, mining, government, defence and remote sectors.

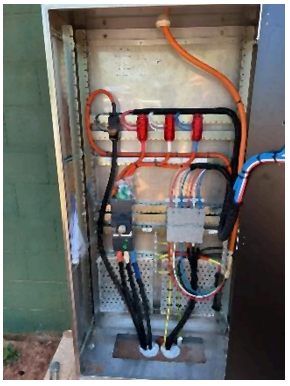
WHY CHOOSE THE ELECTRICAL MOB?

- On time, every time
- Quality workmanship
- Competitive pricing
- End-to-end project delivery
- Remote area specialists
- Indigenous-owned business

CORE SERVICES

- High Voltage & Low Voltage Infrastructure
- Electrical Design & Construction
- Communications & Data Networks
- Fibre Optic Solutions
- Emergency Response Services
- HVAC & Refrigeration
- Solar & Renewable Energy Systems
- Generator Installation & Maintenance
- Remote Community Maintenance
- Government & Defence Projects
- Mining Infrastructure





THE BUILDING MOB

Construction I Maintenance I Disaster Recovery

Delivering construction, insurance rectification, disaster recovery and maintenance services throughout Northern Australia.

Our team has extensive experience managing and delivering projects ranging from residential and commercial repairs through to large-scale weather event recovery and remote community infrastructure works

WHY CHOOSE THE BUILDING MOB?

- Residential & Commercial Expertise
- Insurance Repair Specialists
- Remote Area Experience
- Disaster Recovery Capability
- End-to-End Project Delivery
- Indigenous-Owned Business

CORE SERVICES

CONSTRUCTION

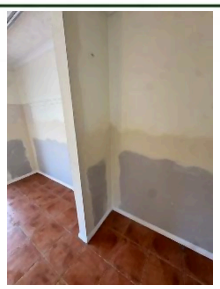
- Commercial Construction
- Residential Construction
- Building Refurbishments
- Internal & External Repairs
- Carpentry & Structural Works
- Roofing Construction & Replacement
- Fencing & External Works
- Facility Maintenance
- Civil & Site Works

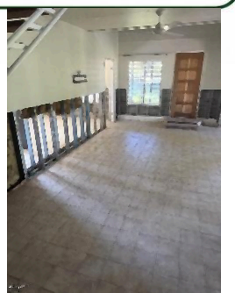
INSURANCE & RECTIFICATION

- Insurance Repair Programs
- Building Assessments
- Scope Development
- Structural Rectification
- Large Loss Claims
- Emergency Make Safe Works
- Property Reinstatement
- Trade Coordination & Project Management

DISASTER RECOVERY

- Cyclone Recovery Programs
- Flood Recovery Programs
- Emergency Response Services
- Community Infrastructure Repairs
- Remote Area Recovery Works
- Asset Restoration Programs





THE BIN MOB

Waste Management & Site Services Across Northern Australia

Supporting construction, maintenance and infrastructure projects with reliable waste management and site services solutions.

We are committed to keeping worksites clean, safe and compliant while supporting communities across Northern Australia.

WHY CHOOSE THE BIN MOB?

- Locally Owned & Operated
- Reliable Service Delivery
- Flexible Bin Sizes
- Construction & Project Support
- Waste Management Solutions
- Indigenous Owned Business

CORE SERVICES

SKIP BIN HIRE
A range of bin sizes to suit construction, commercial and residential projects.

WASTE MANAGEMENT
Efficient and responsible management and disposal of all waste types.

SITE CLEAN-UPS
Keeping worksites clean, safe and **compliant** from start to finish.

ASSET DISPOSAL
Safe and compliant disposal of unwanted assets and materials.

CONSTRUCTION WASTE REMOVAL
Timely removal of construction waste to maintain safe, efficient worksites.

DISASTER RECOVERY CLEAN-UP SERVICES
Rapid response clean-up and waste removal when it matters most.

SECTORS WE SERVICE

OUR DIVERSE COVERAGE

The Mob Group delivers integrated solutions across a diverse range of sectors

MINING & RESOURCES

Supporting operational and capital projects with construction, electrical infrastructure, maintenance and workforce accommodation solutions.

GOVERNMENT

Delivering compliant construction, maintenance and infrastructure services to local, Northern Territory and Australian Government agencies.

DEFENCE

Providing reliable project delivery and maintenance services that meet stringent compliance and security requirements.

INSURANCE

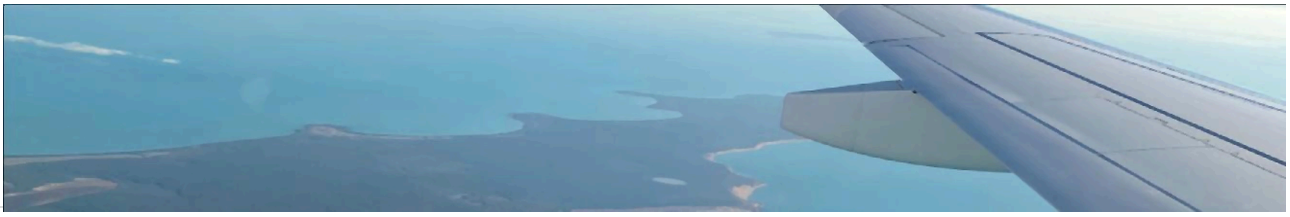
Specialising in emergency response, assessments, rectification works and large-scale disaster recovery programs.

REMOTE COMMUNITIES

Supporting Indigenous communities with housing, infrastructure, maintenance and essential services projects.

COMMERCIAL & INDUSTRIAL

Delivering construction, maintenance and infrastructure solutions that minimise operational disruption and maximise asset performance.



MINING PROJECT EXPERIENCE

MT TODD GOLD PROJECT - DEWATERING INFRASTRUCTURE UPGRADE

PC

PRINCIPAL CONTRACTOR

Principal contractor for the turnkey Mt Todd dewatering upgrade, coordinating specialist contractors, suppliers, logistics and delivery across mechanical, electrical, fabrication, controls, communications and commissioning.

4x

PUMP & MOTOR REFURB

Removal, transport, overhaul coordination, reinstatement and recommissioning of four Weir Multiflo ME-420EX pumps and associated 500kW motors, including workshop testing and return-to-service activities.

315

PIPELINE & MECHANICAL

Fabrication and installation of four 315mm HDPE floating discharge pipelines, float and restraint systems, 316 stainless steel manifold works, valves, mechanical tie-ins and pump skid reinstatement.

LV

ELECTRICAL INFRASTRUCTURE

Major replacement of power, control and fibre infrastructure, including cable routes, floating conduit systems, motor and pontoon terminations, VSD rectification and associated field electrical works.

PLC

CONTROLS & COMMS

PLC and HMI upgrades, telemetry, fibre communications, Starlink remote access, flow-meter replacement, SCADA integration and remote I/O upgrades supporting reliable dewatering operations.

QA

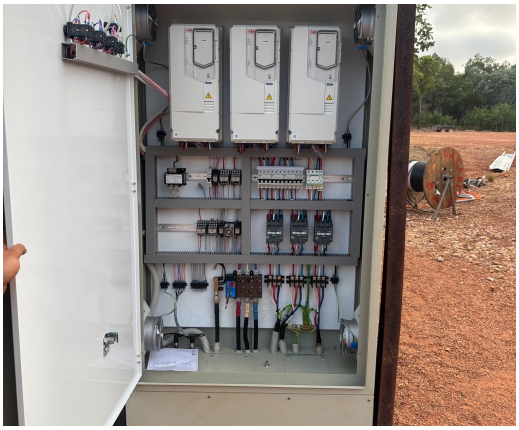
COMMISSION & HANDOVER

Project-wide testing, commissioning, QA/QC and operational handover, including electrical and fibre test records, pump and motor overhaul documentation, software backups, as-constructed information and operator familiarisation.

MINING PROJECT EXPERIENCE

WILTON MINING - WANDI GOLD MINE

Design, reconfiguration, installation and commissioning of electrical and control infrastructure for the processing plant, trommel, pumps and site communications.



PLANT

PROCESS PLANT

Electrical design, reconfiguration and installation across the processing plant, including trommel, conveyors, motors and concentrator interfaces.

VFD

TROMMEL DRIVE

48-pole switchboard, dedicated VFD drive and control box for the trommel, including motor wiring and functional commissioning.

PUMP

PUMP SYSTEMS

24-pole pump switchboard with three dedicated VFD drives, control wiring, pontoon cable tray and pump system commissioning.

CTRL

CONTROL PANELS

Control boxes manufactured, wired and commissioned for plant, pump and auxiliary systems, with yard testing completed prior to deployment.

WIFI

CAMERAS & WI-FI

Three communications/control boxes manufactured and commissioned to support site cameras and Wi-Fi connectivity across the operation.

TEST

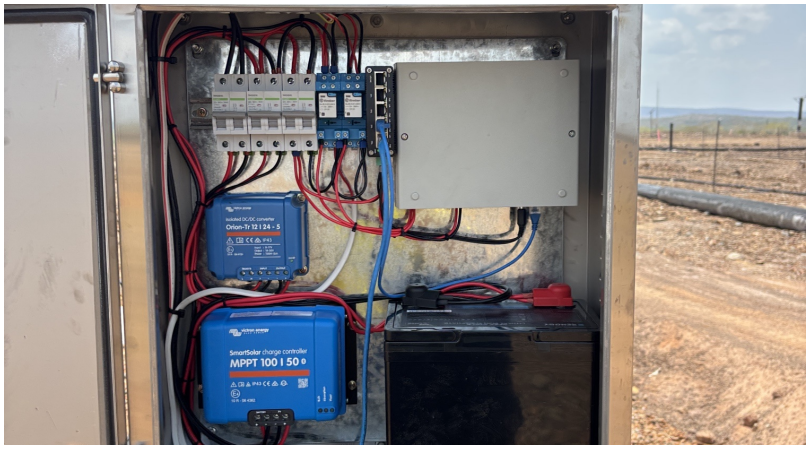
COMMISSIONING

Control logic, motor circuits, switchboards and VFD systems tested and commissioned to provide an integrated operating plant.

MINING PROJECT EXPERIENCE

MT TODD GOLD PROJECT - EVAPORATION CONTROL SYSTEM

Supply and installation of an irrigation control system using NODE-RED, with wireless communications and solar-powered field stations controlling approximately 800 sprinklers across a 10-hour daily schedule.



NODE

NODE-RED CONTROL

Supply and installation of an irrigation control platform using NODE-RED to automate evaporation field operation and daily sequencing.

RF

WIRELESS NETWORK

Ubiquiti Rocket and airMAX central hub with Nano links at field stations to provide wireless communications across the evaporation pit.

SOLAR

SOLAR FIELD STATIONS

Remote valve and relay stations powered by solar panels and 100Ah lithium batteries, eliminating the need for hard-wired field power.

PUMP

PUMP CONTROL

Dedicated wireless link to the pump shed with relay and contactor control, integrating pump operation with the irrigation sequence.

800

800 SPRINKLERS

Automated cycling of approximately 800 sprinklers through a programmed 10-hour daily operating schedule.

CAM

MONITORING & WI-FI

Provision for camera monitoring and Wi-Fi coverage at the evaporation pit and pump house for improved visibility and site connectivity.

PROJECT EXPERIENCE

PROVEN DELIVERY WHERE IT MATTERS MOST

The Mob Group delivers practical, high-quality solutions across Northern Australia, supporting communities and infrastructure when it's needed most.

TIWI ISLANDS CYCLONE RECOVERY WORKS

Delivered assessment and restoration works across community and Catholic NT assets impacted by cyclone events.

SCOPE INCLUDED:

- Large-scale roofing repairs
- Tree removal and site clearing
- Fencing repairs and replacement
- Internal building repairs
- External building repairs
- Community infrastructure restoration

KATHERINE FLOOD RECOVERY PROGRAM

Delivered building rectification, insurance repair and recovery works following significant flooding events in the Katherine region.

SCOPE INCLUDED:

- Structural repairs
- Roofing works
- Internal reinstatement
- External building repairs
- Fencing replacement
- Project coordination and trade management

SERVICE DELIVERY

WHY OUR CUSTOMERS CHOOSE US

ONE CONTRACTOR. COMPLETE SOLUTION.

BUILDING | ELECTRICAL | WASTE SERVICES

DELIVERING INTEGRATED SOLUTIONS.

BUILDING STRONGER COMMUNITIES.

PROUDLY NORTHERN AUSTRALIAN.

RAPID RESPONSE. RELIABLE DELIVERY. PROVEN RESULTS.

NORTHERN AUSTRALIAN EXPERIENCE

Extensive experience operating in remote, regional and challenging environments across the Northern Territory and North Queensland.

RAPID RESPONSE CAPABILITY

Experienced in mobilising resources quickly for emergency response, disaster recovery and critical infrastructure projects.

PROVEN PROJECT DELIVERY

Strong track record delivering projects safely, efficiently and to the highest quality standards.

COMMUNITY FOCUSED

Proudly Northern Australian, committed to supporting local employment, Indigenous engagement and sustainable regional development.

MEET THE TEAM

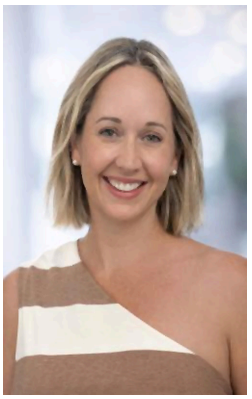
PEOPLE BEHIND THE BUSINESS

LEONARD EICHMANN
DIRECTOR

Leads strategy and growth with a focus on quality, safety and long-term client partnerships.

RONALD SEARLE
GENERAL MANAGER

Responsible for overall operations, project delivery and continuous improvement



REBECCA EICHMANN
ACCOUNTS MANAGER

Oversees finance, compliance and business systems to ensure strong, sustainable operations.

TRAVIS GORRIE
SUPERVISOR

Leads our site teams with a strong focus on safety, quality and practical solutions that get the job done.

WHY PARTNER WITH US

We deliver more than services. We build lasting partnerships, create opportunities and strengthen communities.

> *Local people.*
> *Local knowledge.*
> *National capability.*

INDIGENOUS-OWNED & OPERATED
Proudly Indigenous-owned, creating opportunities and delivering outcomes for our people.

SUPPLY NATION REGISTERED
Officially registered with Supply Nation, supporting Indigenous business growth.

NORTHERN TERRITORY BASED
Local knowledge, local people, delivering across the NT and surrounding regions.

REMOTE AREA SPECIALISTS
Experienced in delivering services across remote and regional locations.

MULTI-DISCIPLINE DELIVERY MODEL
Integrated electrical, construction and waste solutions under one trusted team.

LOCAL EMPLOYMENT & PATHWAYS
Creating jobs and apprenticeships, building skills and strengthening communities.

INDIGENOUS WORKFORCE DEVELOPMENT
Investing in training, mentoring and career growth for Indigenous people.

TRUSTED PARTNER
We build long-term relationships.

SAFE & RELIABLE
Safety and quality come first.

FOCUSED ON DELIVERY
We deliver on time, every time.

SUSTAINABLE FUTURE
Committed to people, communities and place.

CONTACT US TODAY!

The Mob Group is a dynamic team of highly skilled professionals dedicated to dedicated to delivering integrated electrical, construction and waste management services across a diverse range of sectors. Our team comprises experienced electricians, telecommunication technicians, cablers, and support staff who bring a wealth of knowledge and expertise to every project.

Committed to safety and quality, our team members continuously undergo training to stay updated with the latest industry standards and technologies, including high-risk licenses, machinery tickets, industry qualifications and in-house training through our apprenticeship program. This ensures that we provide innovative solutions tailored to the unique needs of our clients.
